

SPEED OF PLAY

Saving time between shots

Did you know? If you waste just 15 seconds per shot, you'll lose two entire ends!

STOP OOPS !

One of the biggest causes of slow play is **not being ready** for your shot when your opponent's stone comes to rest. Stay alert during the game!

Think it's snowing yet?

Beer

✓ **GOOD !**

As soon as your opponent releases their stone, **move into the hack** while their stone is in motion. Get out your stone, and **get ready** for your upcoming shot! Sweepers too!
